The Rule of the 3's... is an old terminology that has to do with the strategy that many Corvette collections were developed... **1953... 1963... 1973...** a "one" for each decade. 1953 was the first year Corvette was produced... 1963 was the first "mid year" or C2 which transformed the Corvette into a world class sports car and was Chevrolet's most iconic moment... The 1973 represents Corvette's third decade and the C3 transformation. It was a 50-50 car with a rubber front bumper (the first time) and the last year of chrome rear bumpers... The 1983 Corvette was introduced in March 1983 but was designated/titled as a 1984 which makes for interesting chatter... The 1993 was Chevrolet's 40th anniversary model. The 2003 was Chevrolet's 50th anniversary model... and it is with much anticipation as to what The General has in mind for 2013. I'm sure it will not be boring as this will mark the 60th Anniversary of the Corvette. Every Corvette collection should consider the "Rule of the 3's". The 1962 Corvette Turns 50... as 2012 marks its 50th anniversary. Many firsts and lasts were achieved with the 1962 Corvette. First year of the 327 cubic inch engine which pumped out 360 horse power with the fuel injection. Last year of the first generation C1 (solid axle) Corvette. The last year of the Corvette with a trunk and the last year of the exposed headlights. Comments/Questions? Email terry@proteamcorvette.com
