ProTeam's New Spring Catalog... is back from the printer and ready for mailing. [Click Here](#) to order ProTeam's four color spring catalog.

The L88 Corvette.... is among the rarest of the rare of all Corvettes with production quantities of: 20 in 1967, 80 in 1968, and 116 in 1969... a total three year L88 production of only 216 units.

- The L88 produced approximately 560 hp at birth but was underrated by GM at 430 hp to discourage the public from ordering for street use as the L88 was purpose built for off-street use (racing) and only those in the know ordered the L88 as evidenced by the production numbers.
- The L88 Corvette is the holy grail for any Corvette and/or car collector and seldom is an L88 offered to the general population as they typically trade word of mouth.
- The 1967 L88 has an estimated value of \$1,500,000.00 to \$2,500,000.00 with ultra-rare color combinations and/or options exceeding \$5,000,000.00
- Entry level values of the 1968 to 1969 L88s range right around \$300,000.00 with the best color combination and optioned cars exceeding \$700,000.00
- There has been no known sale of a 1967 L88 in the past three years and only a few 1968-'69 L88s have changed hands at \$250,000.00 to \$744,000.00 in that same period.
- Email terry@proteamcorvette.com should you have an interest in purchasing a L88 Corvette.

The LS6 Corvette... was produced one year only in a Corvette (1971). The Corvette LS6 was rated at 425 hp and only 188 were produced. The LS6 featured aluminum heads and generally came equipped with the M22 heavy duty transmission but could be ordered with the automatic transmission which is quite rare.

- Only twelve LS6s were produced with the ZR2 racing option that included the M22

transmission, heavy duty power brakes, transistorized ignition, special aluminum radiator, and special springs, shocks, and suspension components.

- Last summer an orange LS6 with the ZR2 option sold for \$550,000.00 at public auction and we know of two LS6 T-Tops that sold for over \$325,000.00 each

Buy American... and save the domestic auto industry, millions of jobs, and our economy... yeah!!! How about a bail out plan that gives ALL auto manufacturers 5 years to install or bring back 90% North American auto content of parts used in the production of their cars and trucks and tax or sanction those who fail the 90% rule. Sure!!! It would be tough for the domestics but more so for the cheap imports that have been stealing our jobs and raping our economy. The

imports would have to build more plants in the US and buy US produced components from the sub-contract manufacturing base thus the rebuild of our industrial/manufacturing industries which equals employment! Sell it here. Make it here!!! Call it protectionism. Call it whatever you want. It's beyond time that we take care of we!!! Just my two cents!!! email your comments to terry@proteamcorvette.com

Obama... Well, here we go again... It's March 2009 and we have a new President that is poised to fix the economy, fix the health care system, fix our banking system, fix GM, Ford, and Chrysler, fix our crumbling roads and infrastructure, stop wars, catch Osama, fix and normalize relations with Cuba (foremost), Hugo, Iran, North Korea, and anyone else that we pissed-off over the last fifty years. Can he do it? Absolutely! Will we pay? Absolutely! Are we having fun yet? Yep! Did you get your share of the TARP bailout funds? Nope!? Me neither! There will be an opportunity for many people in the right place at the right time as the Billions/Trillions of dollars are allocated and spent on the many reforms that are coming our way... and hopefully these new rich people won't forget about our little ProTeam Corvette Sales operation in Napoleon, Ohio (pop. 9,182). email your comments to terry@proteamcorvette.com
