His/Her '63 Corvette Tankers Consigned to Barrett-Jackson... ProTeam's two 1963 Corvette Split Window Coupe Tankers will be sold during the Barrett-Jackson Auction in Scottsdale, Arizona, January 20, 2007. The Corvettes are two of sixty-three tankers produced with the N03 36-gallon fuel tank option. Both coupes are Riverside Red and well documented but any similarity ends there. One is a powerglide with air and is highly optioned with the discerning driver in mind. The other is a thoroughbred with a go-fast history from Canada to Daytona that even caught the attention of NASA researchers. This

Corvette was built for the track with only the finish line in mind. The Tanker Bookends are a perfect fit for the collector as they were built for performance; one for comfort on the road and the other to tear it up. The Riverside Red pair – and their memorabilia – will be sold at no reserve as lot numbers 1280 and 1280.1. Any questions, email: proteam@proteamcorvette.com

ProTeam Acquires The 1969 L-88, "AUTOMATICALLY YOURS"... ProTeam Classic Corvette has yet another jewel in their collection with the acquisition of the L-88 (560 hp) 1969 Corvette Coupe known as "AUTOMATICALLY YOURS" (Stk #337X). This car was purpose built and one of a total production of 216 built in years 1967 through 1969 and this car was one of only 17 automatic L-88's ever produced. The Riverside Gold Corvette was body-off restored by Naber's Brothers of Houston, Texas and Bloomington Gold certified with a score 99.5%!!! This car was also owned by businessman and philanthropist John Moores of the San Diego Padres and was donated, along with 26 exceptional automobiles which included thirteen 1953 Corvettes as well as CERV II and two Ferrari Nart Spyders, to the Scripps Research Institute to benefit the Institute for Childhood and Neglected Diseases and was sold by the Scripps Institute several years ago at the Christie's auction at La Jolla, California (Torre Pines). Other past owners include John Leonard of Georgia and Ken Heckart from Pennsylvania and used as a drag car by its first owner, Bard Chevrolet. *This very rare Corvette Stingray L-88 is one of the most sought after models of American high performance sports cars ever produced.*

Classics are measured in firsts and "Last"TM (Millionaire Magazine 2006)... When the "Last"TM Sting Ray is auctioned at the Barrett-Jackson Auction in Scottsdale on January 20th, 2007, it will signal the end of an unprecedented project with a most extraordinary car. It has been an 18 month exercise which included a rapid-fire rotisserie body-off restoration, an award winning ride on the show circuit and the filming of a six part mini-series debuting December 7, 2007 on Speed Channel. The awards in the "Last"TM 67's showcase include two NCRS Top Flights, Bloomington Gold, Gold Spinner, Most Significant Corvette, and the Meadow Brook Concours' Lions Class award. This nationwide tour builds toward the finale with appearances at the SEMA convention and at the Fall Chevy Vette Fest before heading west toward Arizona. "The Last Sting Ray", a six-part documentary airing on Speed Channel in December, merges parallel story lines of the Corvette history, America's love affair with the marque, and the significance of July 12, 1967; the day #22940 rolled out of the St. Louis plant. Beyond the continuous stream of editorial space, the "Last"TM Corvette's legacy will be the good works it has inspired. Both the Chip Miller Charitable Foundation and the Ronald McDonald House Charities® will be the beneficiaries from the project that united the Corvette community. Email: proteam@proteamcorvette.com

Bid With Confidence Collection... ProTeam recently auctioned six (6) Corvettes at Mecum's 11th Annual High Performance Auction. ProTeam's theme "Bid with Confidence" came from the blur of emotion born in the minutes of furious bidding that occurs during an auction. Many times, the winner will have more questions than answers when taking possession of their car. ProTeam eliminated the fear of the unknown by putting each Corvette's pedigree in writing; all of ProTeam's lots guaranteed that the body/paint/trim tags were in fact original. *Future ProTeam Corvettes going across the block will receive the same scrutiny, so go ahead and bid on our cars with the confidence as 35 years of Corvette scholarship having signed off on the car's lineage, as if you don't like it... you don't own it!!!!*
