The 1963 Corvette and the 50th Anniversary of Corvette's Greatest Achievement... is here as September 17th, 2012 marked 50 years to the day when the Chevrolet Corvette was transformed into the iconic 1963 Corvette Split Window Coupe which is now a milestone and what we believe is the most significant event in Corvette history, thanks in part to the efforts of GM's Bill Mitchell, Larry Shinoda, and Zora Arkus Duntov. Thousands of photos grace the internet and past magazine articles as the 1963 Split Window Coupe represents a hallmark of the famed Stingray and its design is endless without peers. Here are a few quotes that I have extracted from various articles: A) all time great, B) a bowtie legend, C) a cultural icon, D) a milestone, E) a breakthrough in style and substance, F) a benchmark, G) sophisticated and civilized, H) every Corvette since has been influenced by it, I) the most exciting production car America has yet experienced, J) history's most unforgettable, K) it didn't just carry people, it carried dreams, L) timeless styling, M) this is the car that made the Corvette hobby, N) a symbol of the 1960's American dream, O) extreme makeover and leaped into the future, P) demonstrated dramatic styling changes, Q) emotional appeal, execution, artistic excellence, and design character and continuity, R) distinction and visionary. Few car collections, personal or commercial, are without one such example. Celebrate with us in 2013 the most successful Corvette launch ever; opening the eyes of the world to the Corvette which popularity has no boundaries. Comments? Email: terry@proteamcorvette.com

The Rule of the 3's... is an old terminology that has to do with the strategy that many Corvette collections were developed... **1953... 1963... 1973...** a "one" for each decade. 1953 was the first year Corvette was produced... 1963 was the first "mid year" or C2, which transformed the Corvette into a world, class sports car and was Chevrolet's most iconic moment... The 1973 represents Corvette's third decade and the C3 transformation. It was a 50-50 car with a rubber front bumper (the first time) and the last year of chrome rear bumpers... The 1983 Corvette was introduced in March 1983 but was designated/titled as a 1984 which makes for interesting chatter... The 1993 was Chevrolet's 40th anniversary model. The 2003 was Chevrolet's 50th anniversary model... and it is with much anticipation as to what The General has in mind for 2013. I'm sure it will not be boring as this will mark the 60th Anniversary of the Corvette. Every Corvette collection should consider the
